

With the DentalMonitoring app and ScanBox^{PRO}, you can now send in photos of your teeth and communicate with your doctor securely from the comfort of your home — or anywhere in the world!

The DentalMonitoring app is available in the App Store or Google Play.

PROGRESSIVE ORTHODONTICS + DentalMonitoring

ORTHODONTIC TREATMENT, YOUR WAY.

DentalMonitoring, SmileMate and Vision are products designed and manufactured by Dental Monitoring SAS, under the DentalMind branding for Health Care Professionals (HCPs). They are also used by patients under the mandatory supervision of Health Care Professionals (HCPs). DentalMonitoring and SmileMate are designed to assist HCPs with remotely observing intraoral situations (and monitoring orthodontic treatments for DentalMonitoring). Refer to your HCP and/or the Instructions for Use before use. DentalMonitoring product is a medical device (in Europe only), registered as such and holding the CE mark. Vision simulations are generated using artificial intelligence, they are not contractual and may differ from the final results of the patient's treatment. Product availability, claims and regulatory status may differ across countries depending on local regulations. Contact your local representative for further information. The ScanBox pro is a product designed and manufactured by Dental Monitoring SAS, under the DentalMind® branding. The ScanBox pro is designed to pair up with a smartphone in order to conduct scanning procedures performed with products marketed by DentalMonitoring. The ScanBox pro is a medical device, registered in agreement with the local regulations. Refer to your HCP and/or the Instructions for Use before use. Product availability may differ across countries. Contact your local representative for further information. AD_HDW_BR_007_01_rd_P_AU_en

DentalMonitoring is made for you:

More convenience

Enjoy the simplicity of regular remote checkpoints to make sure your treatment is tracking well!

Better communication

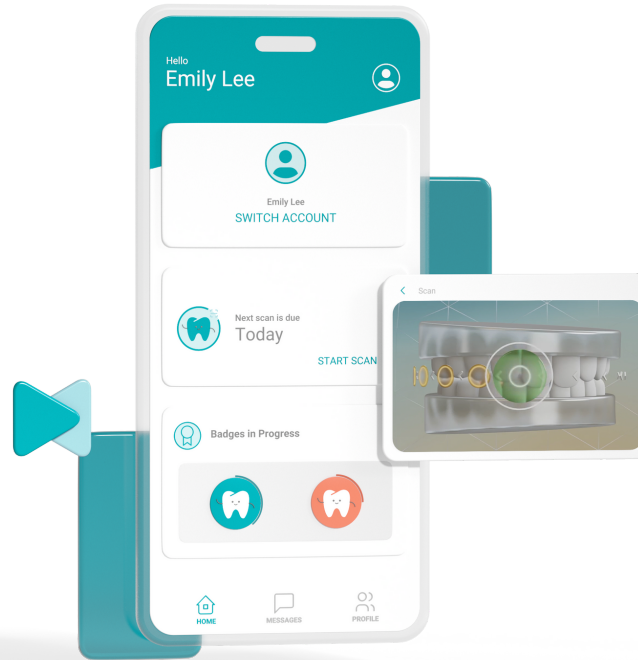

Receive your own treatment recommendations and contact your doctor easily with an in-app messaging system for any concerns or any questions.

Higher motivation

See your smile change before your eyes using the unique before/after feature. There's no better feeling than seeing your dream smile take shape on your screen.

More fun

Play to win!! Our app has a friendly design, including gaming features to make the patient experience fun and rewarding.

Tired of traveling back and forth to the dentist?

Now, we can track your treatment progress every week with DentalMonitoring. Send us scans of your smile from wherever you are and only come into our office when needed.

Best-in-class treatment experience.

Extra convenience with remote treatment follow-up. With our ScanBox pro you can take more frequent scans of your smile from the comfort of your home.

Ready, Set, Smile!

Ask Your Doctor for more information on using DentalMonitoring to help manage your Braces or Aligners treatment.

Easily follow the evolution of your treatment!
